Green Infrastructure goes business award

apply
now!

Open for submissions
24 November 2022 - 31 January 2023

We are looking for **innovative ideas and sustainable products, services and business models** with positive impact on Green Infrastructure (GI) in the EUSALP perimeter. The award 2023 **calls particularly for solutions with benefits for climate change mitigation and adaptation.**

**Win a business coaching
tailored to your needs!**

The competition is open for

- Start-ups
- Established enterprises
- Institutions
- Associations
- Private persons

Businesses can make use of Green Infrastructure to find solutions to reduce greenhouse gas emissions or to adapt to climate change effects like rising temperatures, droughts, and natural hazards. For example, by

- fostering ecological restoration and climate protection in forests, peatlands, and river floodplains,
- developing natural cooling systems with trees and plants,
- nature-based tourism and products or
- by providing new services for awareness raising and proactive climate resilience planning.
